

# Equine Photography

Horses and their surroundings make beautiful subjects for photographs whether you are new to photography or have experience taking pictures. This 3-session course will provide the opportunity to learn or refresh your understanding of basic camera functions, composition and exposure basics, using horses and nature as the backdrop for your photographs. You will also learn basic photo editing techniques as you edit your own pictures. Cameras will be available, however if you have your own, you are encouraged to bring it with you.
